Expertise

— iOS Developer — Software Engineer
— Android Developer — Frontend Developer
— Web Developer — Backend Developer

Bio/Goals

I'm a Software Engineer currently working as Apple's iOS Developer.
I build mobile base applications based on Apple iOS operating system.

I love to learn something new. I'm interested in programming and
technology since in Vocational High School. Start write code in 2015
and I'm enjoying reading and listening to music in my spare time.
